About Me

I am a **Computer Science student** and versatile developer with hands-on experience in building efficient client- and server-side applications. I have a strong foundation in front-end and back-end development and am passionate about solving problems, learning new technologies, and contributing to impactful projects. I am also a **Cowrywise Campus Ambassador**, demonstrating leadership and teamwork in engaging and promoting financial literacy initiatives.

Education

SQI College of ICT – Studying Software Engineering / Web Development
2024 – Present

LAUTECH – Bachelor's in Computer Science
2024 – Present

Experience & Leadership

Cowrywise Campus Ambassador

- Promoted financial literacy among students

- Engaged peers through outreach activities
- Supported brand awareness initiatives

Freelance Developer *(Self-Employed, Jan 2024 – Present)*

- Built responsive websites and web apps for small business owners and individuals using React.js, improving client online presence
- Managed end-to-end development: coding, testing, deployment, and basic maintenance on platforms like Vercel and Netlify

Projects

Novawallet – Personal Expense Tracker
A web application designed to help users **manage, categorize, and visualize their spending efficiently**.
Features:

- User Authentication System: Email/Password and Google OAuth2 login
- OTP Verification System for secure access
- Email System for user feedback and promotional emails
- Profile Update System: Integrated Cloudinary SDK for profile picture uploads
- Expense Management: Add, categorize, and track transactions with data visualization

Technologies used: JavaScript, React, Node.js, Firebase, TailwindCSS

FlexZone Fitness – Personal Fitness Web Application
A web application that allows users to **track workouts, monitor progress, and manage fitness goals**.
Features:

- User Authentication System: Email/Password login
- User Account Verification System for secure access
- Workout & Progress Tracking: Log exercises, track performance, and visualize improvements

Technologies used: React.js, JavaScript, Node.js, Firebase

Soft Skills

- Collaboration
- Communication
- Debugging

Technologies

- HTML, CSS
- TailwindCSS / Bootstrap
- Git / GitHub
- React.js
- JavaScript
- Node.js
